Prime Minister Sets Date For Parliament Session

OTTAWA — Prime Minister Diefenbaker announced last week the first session of the newly-elected Parliament will meet Thursday, September 27.

The announcement was made in a one-sentence press release from the Prime Minister's office which said Parliament would meet at 11 a.m. that day.

First duty of Parliament will be to elect a speaker of the Commons and the normal practice would be for the government's speech from the throne, outlining the legislative program, to be read at 3 p.m. that afternoon.

Mr. Diefenbaker is expected to announce shortly the government's nomination for the position of speaker, a nomination is usually supported by the Opposition as the result of private conversations between its leaders and the Prime Minister.

CABINET APPOINTMENT

The speaker of the Senate is appointed by the Cabinet, rather than elected.

Before Parliament meets, Prime Minister Diefenbaker plans to attend the Commonwealth Prime Minister's conference in London opening September 10 and lasting about 10 days.

He is also expected before the opening to announce the appointment of up to 14 Parliamentary Secretaries to Ministers.

Athabasca School Committee Told Of 35 Mill Allotment For Schools

The budget as drawn up at the June meeting has been returned from the department to the County of Athabasca School Committee. The mill rate will be 75 mills, with 31 for municipal; four for the Alberta Hospital Act; two for the Health Unit; one for Civil Defence and Home for the Aged; 32 for School under the Foundation program and three supplementary, the committee was told at its last meeting.

Five caretakers attended the ASTA Custodial Training School.

It was felt the coaching school was filling a need, and there will be another one this year. Dates set were from Aug. 6 to 11 inclusive.

Resignations were accepted with regret from Bernice Barklay, Bruce Evans and C. K. Conway.

Alberta Lumber Market Showing Improvement, Deputy Minister Says

Officials of the Alberta Department of Lands & Forests are hopeful that the United States government will not vall on Canada to place voluntary quotas on exports of lumber to the U.S.

place voluntary quotas on exports of lumber to the U.S.

Deputy Lands and Forests Minister H. G. Jensen said the Alberta lumber market is improving, but this trend could be reversed if exports were reduced. The volume of lumber sold has been increasing since the construction season began, but prices have remained about the same.

The value of Alberta's forest production is about $30 million annually. About 80 per cent of the lumber is exported, including a considerable quantity to the United States.

The government's new schedule of dues for timber on crown land went into effect August 1. Dues for poplar and some balsam fir have been reduced from $1.75 to $1.25 per thousand board feet. Dues for pine and spruce, which make up most of the lumber produced, remain at $4.15 per thousand feet.

Karol Sonatsky of this district died recently after a short illness.

Fire Destroys L. Ulliac Barn At Gourin

GOURIN — The huge barn on the Louis Ulliac farm was destroyed by fire Saturday night of last week.

Mr. Ulliac was away at the time and left at home were his son Roland, his wife Betty and their baby boy Aurele. Louis' brother Frank was visiting the family at the time the fire was noticed.

At 10:30 p.m. Frank, Roland and Betty were enjoying a cup of coffee when they observed a bright light and heard a crackling noise.

Finding the barn on fire, Frank ran immediately to call the neighbors, many of whom had retired. Within half an hour more than 40 men had arrived to help Roland.

Unable to save the barn, helpers threw water on near-by buildings. Roland reports that when he touched the garage 300 feet away he could not hold his hand on it.

It is not known how the fire started but, when observed, the south side of the building was burning.

Now more than ever your best capacity buy -- The John Deere Low-Line 65 Combine gives you 10 per cent more capacity for your money

Big capacity per dollar invested has always put the 65 Combine at the top of the pull-type combine list. Now, with larger separating and cleaning units, the Low-Line 65 has 10 per cent more capacity. It's more than ever your best capacity buy.

New low lines mean the 65 is easier to store. It's only 9 feet 3 inches high—stores in most machine sheds with ease. And, there's a fold-back unloading auger to reduce width.

Lac la Biche School Division No. 51

DEAR PRINCIPAL AND PARENTS:

The Board of the Lac La Biche School Division appreciates the concern which the staff and the parents are showing toward the wearing of proper footwear in our schools. In keeping with this interest, the Board offers the following policy on footwear for school wear.

No footwear shall have any rubber which will leave markings on the floors or walls. (e.g. Reclaimed rubber is a big contributor to marks on the floor.)

No metal parts shall be worn on shoes, which would scar or scuff the floors or school property, (e.g. metal cleats, hobnails, etc,)

The board is indeed hopeful that with the co-operation of staff, parents and students we can cut down the incidence of damage to school property by showing care in the type of footwear which is worn. The Board thanks all for their co-operation in this matter,

On behalf of the Board,

MR. J. WILLIAMS,
Chairman of the Board.

CANADA'S FOOD GUIDE

An excerpt from Miss Mary Macbeth, Chief Nutritionist of the Nutrition Division, Department of National Health and Welfare, Ottawa.

The title is now "Canada's Food Guide". In keeping with this, the words 'at least' have been removed from all but one of the food groups where they previously occurred.

B. McCutcheon

There is revised wording in the milk group. The measurement unit has been changed from pints to cups, at the request of nutritionists concerned with health education. Most of them considered this measurement to be more easily understood. Since 'cup' means different things to different people, it was necessary to state, in fluid ounces, the amount intended. The recommendations now read:

Children (up to about 11 years) 2½ cups (20 fl. oz.); adolescents, 4 cups (32 fl. oz.); adults, 1½ cups (12 fl. oz.); expectant and nursing mothers, 4 cups (32 fl. oz.).

Since it was undesirable to consider measurements less than ½ cup, the amounts previously given for adolescents (1½ pints) and adults (½ pint) have been rounded upward each by 2 fl. oz. This does not indicate recognition of an increased requirement.

In the Fruit group there is a change of wording but the meaning is the same—two servings, one to be a vitamin C source. Vitaminized apple juice has been included in the latter listing because nearly all apple juice is now vitaminized, the product is generally available, and in some areas it is the cheapest source of this vitamin.

In the Vegetable group, potatoes and 2 others are still recommended. Under Bread and Cereals, the number of slices of bread, previously 4 has been removed. The Meat group, though recorded, still recommends one serving of meat, fish, poultry or other protein source each day. Similarly, the use of eggs and cheese each three times a week is again recommended.

It is to be hoped that everyone concerned with nutrition education is able to adapt to the implied change in the philosophy of the Food Guide. I say 'implied' because even the Food Rules were never intended to be more than a pattern for healthful eating. Nearly twenty years of use, however, have given them an aura of finality which it may be difficult to dispel. In education it is very handy to have facts —statements that are right or wrong, like that multiplication table Unfortunately, nutrition doesn't fit into this category. There are literally hundreds of food combinations that will provide adequate diet. All teaching must be adapted to the audience. Social and ethnic customs must be recognized and considered, the likes and dislikes of individuals are important but do not, or should not, defeat the teacher.

Variety is the secret of good nutrition—and of real pleasure in eating. Nutritionists, like anyone else, are personally much more interested in food than in nutrients. If you think of them as food cranks who consider every bit they take in terms of minerals and vitamins, you are quite wrong. I know a good many of them and can say from experience that almost all really enjoy food. They have a minimum of prejudices to limit their choice and they have an experimental curiosity about foods which results in a liking for a wide variety. They consume and relish all the foods recommended in Canada's Food Guide, without giving it a thought. And, secure in the knowledge that their nutrient needs are being met in such a pleasant way, they do not waste money on vitamin and mineral supplements.

This land of abundance in which we live produces a fascinating variety of foods from which to choose. Canada's Food Guide provides an easy pattern to follow and I commend it to you, not primarily because the foods it recommends are good for you but because they are so good to eat."

Voice Of Women Members Present Statement To Justice Minister

The following was presented by Mrs. Helen Tucker, president: VOW Canada and MME. Therese Gasgrain: vice president at Ottawa, August 2.

To: The Hon. E. Davie Fulton, Minister of Justice & Attorney General, Ottawa. From time to time during the two- year period of the organization and development of Voice of Women, Canada, 1960-62, allegations of infiltration and control by members of the Communist Party have been made against our organization. Most recently, to wit, on July 27, 1962, a Mr. Calvin M. MacDonald appeared on the eleven o'clock news broadcast of CBC admitting that he had been an undercover agent of the RCMP for ten years while posing as a member of the Communist Party. Upon being questioned further, Mr. MacDonald said: "Voice of Women has been infiltrated and taken over by the Communists". This is not true, Mr. Minister. On the following day, Saturday, July 28, 1962 Mr. MacDonald wrote and signed the following statements "I do not know of any Communist member who holds a position on either the National or any Provincial Committee of the Voice of Women". Meantime, however, the front page headlines and newscasts carrying the accusation, placed damaging and untrue impressions in the minds of readers and listeners, thereby creating a suspicious climate of public opinion.

Mr. Minister, we ask your protection . . .

1. From slander, by parties telling untruths in such a manner as to pre-judice their correction.
2. From malignment incurred by "newsbreaks" which do not permit equal opportunity to expose untruths and the perpetrators thereof.
3. From slander by a person or persons allegedly employed by the very forces to which we look for protection of the freedoms guaranteed to us by the Bill of Rights.

The stories told by Calvin M. MacDonald are made credible to the public and are therefore more reprehensible, because he claimed to be acting on the part of the security forces of this country, namely, the Royal Canadian Mounted Police, are we to assume, Sir, that without denial by the RCMP, Mr. MacDonald is making or has made, statements of false and sensational news value with the tacit approval, if not the authority, of the RCMP? Like most Canadians, we have always admired the RCMP which has become in the eyes of the world almost a symbol of our country. The RCMP carefully checks those who bring into Canada illegally, even a carton of American cigarettes, defrauding the Canadian treasury of even a few cents. How, then, is is possible that an individual of very doubtful character, with no proof of his accusations, is able to rob the reputation of respectable citizens and organizations of Canada? How can the RCMP allow Mr. MacDonald to use its good name to indulge in such disgraceful publicity?

We hope, Mr. Minister, that in the present circumstances the RCMP will choose to extend to the Voice of Women and to all of its members the same protection which it is its duty to provide for all law-abiding citizens. We hope that henceforth the RCMP will be able to deal with the misdeeds of such double-agents with the same zeal and dispatch as they employ against minor offenses.

Since, at this very moment, Sir, Voice of Women is providing The Leadership for an International Conference of Women to be held in Montreal, Canada, in September of this year, on behalf of an International Co-operation Year through the United Nations, we earnestly appeal to your sense of fairness, Mr. Minister, to assist us in the correction of the grievous mischief and slander which we feel has been committed against the good name of Voice of Women Canada.

It's easy to find an excuse to lelaying hard work.

Reindeer Air Service Cessna Finds Men Missing In North

Two men, missing since August 4 in a small boat on the shore of Beaufort Sea, NWT, have been found alive and returned to their home in Inuvik.

Cessna 180 of Reindeer Air Services, flown by Fred Carmichael of Aklavik and Reindeer Station and Dan Sydney of Reindeer Station, spotted the lost men 15 miles south of their destination, Tuktoyhatuk, at 8:30 p.m. Friday night.

The survivors, John Comeau, 27-year-old bank manager, and Virgilio Vigleone, 25, both of Inuvik, were picked up by float-equipped aircraft and returned to Inuvik.

The men were interviewed by F/O Barry of the RCAF who organized the search. No information was available on the physical condition of the men, or reason of their failure to complete the 70-mile boat trip.
